RE- How did the world begin? Y6 Vocabulary

Subject Specific Vocabulary		Relevant Pictures	Exciting Books/Websites
belief	An acceptance that something exists or is true, especially one without proof.		 
creation	The creating of the universe.		
Big Bang theory	The scientific theory that describes the early development of the Universe.		
Genesis	An account of the creation of the world.		
William Paley	An English philosopher and theologian (someone who studies religion). (1743 – 1805).	Key Knowledge	Other information
Charles Darwin	An English naturalist (1809-1882). In 1859 Darwin published On the Origin of Species, which outlined his theory of evolution.	Muslims, Jews and Christians all believe that the Genesis account is how the world started. The Genesis creation story states that God created the heavens and the earth, and all living creatures in 6 days and rested on the 7th. The Iroquois are a Native American people. Their creation story is one that was passed down orally, from generation to generation. Hindus believe that Brahma the creator created the world from a lotus flower under the order of Lord Vishnu.	The Sanema are an indigenous tribal people of Brazil and Venezuela. Their creation story shows the importance of the forest to their way of life; the Sanema try to live in harmony with the natural world, seeing the forest as a living thing to be treated with respect and care.
universe	The Universe is everything we can touch, feel, sense, measure or detect. It includes living things, planets, stars, galaxies, dust clouds, light, and even time.	The Big Bang theory is a scientific theory that explains the creation of the world from an initial 'big bang'. Paley thought that just as the watch has a designer, so must the world. Both are intricate and work with precision and have a lot of detail. He believed in God and that he was the designer and creator of the world.	 
Isaac Newton	Isaac Newton studied maths and physics. He was born in 1643 and became famous for his work on gravity and his three laws of motion.		
Iroquois	Originally, an organised group (confederate) of North American tribes in the 1600s and 1700s.	Newton believed that the fact that each person had an individual finger print was evidence that God existed. Only he could take the time and care to ensure that each person was individual, even down to their thumbprint.
