Science- Seasonal Change: Y1 Topic Vocabulary Mat

Subject Specific Vocabulary		Relevant Pictures	Exciting Books/Websites	
weather	Weather is the way the air and the atmosphere feels. It includes the outside temperature, strength of the wind, and whether it is raining, sunny, hailing, snowing, sleeting, foggy, or cloudy. The weather changes regularly and tends to be different during different seasons and across different countries.	 	 	
seasons	As a year passes, regular changes occur in the weather. In the UK, this cycle of weather changes is divided into four parts, known as the seasons. The four seasons are winter, spring, summer, and autumn.		Other information https://www.bbc.co.uk/bitesize/topics/zv2mn39 How to collect data <small>Part of: Media Collecting data Year 2</small> + Add to My Bitesize 	
temperature	Temperature is a degree of hotness or coldness that can be measured with a thermometer.		What I've learnt already EYFS: <ul style="list-style-type: none">I know when each of the four seasons occurs.I know what the features of autumn are and what happens to trees in this season.I know that days are longer in summer (sunshine hours) than in winterI can observe changes across the four seasons.	Key Knowledge <ul style="list-style-type: none">I know about and can describe weather in different seasons over a year.
climate	Climate is a description of the average weather conditions in a certain place over time. Different areas of the world have different climates.			<ul style="list-style-type: none">I know and can describe the features of different seasons and how they change through the year
deciduous	Deciduous trees are trees that shed their leaves once a year, usually during the season of autumn, when their leaves are mature, or fully grown.	<ul style="list-style-type: none">I can collect information about the weather regularly throughout the year		
evergreen	Having green leaves throughout the entire year.	<ul style="list-style-type: none">I can present this information in tables and charts to compare the weather across the seasons		
observe	To watch carefully, usually in a way that helps us to understand or learn something over time.	<ul style="list-style-type: none">I can demonstrate knowledge in different ways e.g. creating seasonal artwork		
data	A collection of information, gathered by observation, questioning or measurement.			
table	An arrangement of rows and columns for presenting data.
