Ordnance Survey map	Ordnance Survey is the national mapping agency for Great Britain.	<ul style="list-style-type: none"><li>• Every house and street in our country has a name and a postcode. The name of the street is usually on a wall or a sign at the beginning of the street.</li><li>• Your address has the name of the street you live in, the number or name of your house; the village, town or city you live in and a postcode. This is how the postal workers know where to bring your letters.</li><li>• An aerial photograph is a photograph taken from above. It allows you to see lots of roads at once, like on a map.</li><li>• Maps have symbols on them to show us important buildings and other features of the area.</li><li>• Human features are characteristics of a place that were made by humans, for example shops and roads</li><li>• Physical features are characteristics of a place that are naturally occurring. These include features of the land (hills, mountains), bodies of water (lakes, rivers) and vegetation (trees, plants).</li></ul>	<ul style="list-style-type: none"><li>• The compass directions are North, South, East, West.</li><li>• Develop knowledge of map symbols (river, church, roads etc) by using them on their own map keys, as well as identifying on others.</li><li>• To know that Stoke Newington is part of a city and develop understanding of the countryside having different geographical features.</li><li>• To know that Stoke Newington is in Hackney and that Hackney is a borough in London.</li><li>• To know that London is a city and that cities have different geographical features than the countryside.</li><li>• To know the term 'land use' and know some ways that land use is different in the countryside than in their local area.</li></ul>
