Y5 - Geography - Reading maps: Y5 Topic Vocabulary Mat

Subject Specific Vocabulary		Relevant Pictures	Exciting Books/Websites
human geography	Human geography focuses on where people live, what they do, and how they use the land.	 Lines of Longitude  Lines of Latitude 	BBC bitesize: https://www.bbc.co.uk/bitesize/topics/zvsfr82/articles/zd4rmfr#zxbc96f1
physical geography	Physical geography is the study of the Earth's surface, such as the continents and oceans.		
Ordnance Survey map	OS create up to date and accurate maps showing the landscape's human and physical features.		
atlas	A book containing maps		Other Information  The world's time zones
coordinates	A point on a grid has two numbers to identify its position. These numbers are known as coordinates.		
navigation	Navigation is the art of finding the way from one place to another.	What I've learnt already	
compass	A navigational instrument which shows us the directions (N,S,E,W) with the help of a small magnetic needle which points north/south.	Key Knowledge	
longitude	Latitude and longitude are a system of lines used to describe the location of any place on Earth. Lines of longitude run in a north-south direction.	Y4: <ul style="list-style-type: none"> There are 23 countries in North America, with Canada being the biggest (I can find relative locations on a map). There are 50 states in the USA. Panama is a country in Central America. Its canal is an important trade route that links Atlantic and Pacific Oceans. Spain has land borders with three other countries: Portugal, France, and Andorra. It also borders the British overseas territory of Gibraltar. Y3: <ul style="list-style-type: none"> There are 12 countries in South America and almost 400 million people live there. Europe is in the northern hemisphere. Y2: <ul style="list-style-type: none"> I know the relative locations of the UK's capital cities. The compass directions are North, South, East and West. Uganda is a country in Africa and I am able to locate it on world map (with reference to the equator). I know some map symbols and have used them on my own map keys, as and identified them on others'. Y1: <ul style="list-style-type: none"> A continent is a land mass and an ocean is a large body of water (and I know the names of each). 	
latitude	Lines of latitude run in an east-west direction across Earth. Although these are only imaginary lines, they appear on maps and globes as if they actually existed.	<ul style="list-style-type: none"> I can name significant human and physical features of the UK. I can locate countries in Europe and North and South America identifying human and physical characteristics. I can use the index and coordinates to find information in an atlas I can use a key for more complex geographical features on an ordnance survey map. I can use 4 and 6 figure grid references on a map. I know the advantages and disadvantages of digital navigation. I know and can use the terms; lines of longitude/latitude, including the Tropic of Cancer, Topic of Capricorn, as well as previously learnt terms. I understand why we have world time zones.
